

NRC Sliding Rotator & Rollback Certification

The NRC Rotator school will cover all types of the NRC Rotators how to operate them, understand the principles behind their designs, how to use them to get the best capacity and will cover the safety aspects and how to rig them. The day will be split up into two or three classroom sessions with practical hands on examples outside using at least two NRC sliding rotators. We will be lifting Mixers, Loaded tankers and trailers etc. All attendees will be given an NRC training certificate.

Class will be offered on Saturday if Friday class is filled. Plan to attend this informative hands on, real life, training and recovery techniques.

Cost \$100 pp. Limited Seating! Must pre-register. Call 239.334.4874.
